

Front End Developer

Inside Edge Commercial Interior Services is now looking for an experienced Front-End Developer for our Eagan, MN location.

Inside Edge is a nationwide professional services firm recognized primarily for project management and installation expertise in the flooring industry. We are customer-driven, attentive to partners and vendors, and strive to be #1 in the markets and segments we target. We are 100% employee-owned and plan for growth that ensures a stable financial platform, provides professional growth opportunities, and creates shareholder value. We embody a competitive and fun spirit of passion, innovation, and a superior level of commitment to our customers, our employee-owners, and to our communities.

About the Job

We are looking for a Front-End Engineer to join a small team that will impact our external-facing portals, field mobile applications, public web site development and our proprietary project management web application. It will improve our applications, both internal and external, with improvements to existing interfaces and new features. The role has a direct impact on the efficiency of our company and our ability to meet our growth goals.

About the Team

The small technology team at Inside Edge continues to expand! We're enthusiastic, compassionate, bright, collaborative, fast-paced, and engaged. We are directly engaged with our stakeholders and encouraged to challenge the current technologies. We bring our authentic selves to work and receive the support needed to grow. We strive to live the core company values – Integrity, Energy, Collaboration, Innovation, and Service.

About You

- Do you care about crafting easy to use interfaces?
- Do you enjoy leveraging HTML/CSS/Javascript to make digital user experiences?
- Do you strive to communicate clearly and with empathy toward internal and external customers?
- Do you have 5+ years' experience in development and or bachelor's in a related field plus 3 years development experience?
- Are you skilled in intuitive and efficient UI design?
- Are you familiar with REST API concepts?
- Are you interested in understanding the business need behind the technology?

Nice to Have

- Experience working with Bootstrap
- Have experience using a front-end framework such as Angular or React
- Experience with ReactJS
- Previous experience supporting the construction industry.

Equal Opportunity Employer

Benefits and Perks

As an employee owner you will see how each day we work through our values to support/ grow the company we own together. Our owner mentality attracts top talent and inspired our employees to take pride and responsibility for every job we earn. Inside Edge has consistently been awarded the Star Tribune Top Work Place, our goal is to create a place where employees can say, "I love coming to work". To accomplish this, Inside Edge invests in the training and development of our employees, encourages meaningful connections between managers and staff and facilitates a positive work environment that enables employees to thrive and have fun! As a company that is committed to giving back, Inside Edge donates 1% of net revenue every year to several charities chosen by employees. Beyond donating money, Inside Edge employees make sure to dedicate time to helping those in need. Each year staff receive 16 hours of paid time to be used for volunteering at the charity of their choosing.

We offer medical, dental, vision, employee 401k matching, employee stock ownership and competitive salaries. Our company encourages a healthy work/life balance. We're flexible about remote work, especially when it's balanced with an office presence.

How to Apply

A resume is a great start, but we'd love a cover letter about you and why you want to work here. Even more gravy is some examples of your work - a portfolio, screenshots, videos, whatever you think represents what you can do. *Please do not send confidential information.*
